## Model Yachting Association

---

Dear Secretary

Thank you for affiliating your club for the 2009 season please find enclosed membership cards for those affiliated. Enhanced members cards have been sent direct to home addresses.

Please accept apologies for the delay in getting them to you but as you appreciate the volume in the first month of the year is quite overwhelming and we have had a number of programming difficulties.

This year we are not laminating the cards as this is a very expensive exercise and we have found that the majority of members only hold the card at home or in a wallet purely for insurance purposes as opposed to racing purposes.

May I point out that all members who are affiliated can access their affiliation status by using the member's area of the web site. As memberships are renewed they are posted at regular intervals to the web site well in advance of a member receiving a card. The posting of the affiliation status on the web is the definitive proof of a club's membership to the Association and is to be used by Race Officers to determine a member's eligibility to race in events.

Access to the member's area is available to all secretaries/ club members by logging in using either name/membership number plus the security code on the back of the 2008 membership card. This security code will carry forward throughout 2009. In future years members will be able to access the database information up to the 31<sup>st</sup> January of the following membership year at which stage unless showing affiliated for the new year access will be denied and both insurance cover and race eligibility will cease.

Yours faithfully

Treasurer
